Youngwirth and Olenick Associates Sign on as Representative in Southern California

Pottstown, PA - August 7, 2007: Micro-Coax is pleased to announce the appointment of Youngwirth and Olenick Associates as their exclusive representative in Southern California. Youngwirth and Olenick's market focus is on military and commercial RF and microwave devices, components and sub-system applications. They pride themselves on their adherence to the company's philosophy of IT³: Integrity, Tenacity, Technical Acumen and Teamwork.

Youngwirth and Olenick Associates represent RF and Microwave manufacturers who are leaders on their respective product areas. This approach, along with IT³ values, sales tools and highly effective personnel truly makes them 'Your Partner in the Southwest.' Micro-Coax is thrilled to have Youngwirth and Olenick Associates join the organization.

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and microwave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
